

# NEO Synthetics

## {PERFORMANCE UNDER PRESSURE}

WATERBESTENDIG VET (OFFSHORE)

### Product Data Sheet – NEO Synthetics High Performance Motor Oils

Due to its pure synthetic base, coupled with the addition of sub-micron size PTFE, NEO Watercraft Grease is an excellent choice for applications in many industries, which requires a clean, tenacious, anti-wear grease.

Because of its U.S.D.A. H-1 NEO Watercraft Grease is outstanding for use in food processing plants, where equipment wash down is an everyday requirement and water Industries, where contamination with conventional petroleum lubricants is a primary environmental concern.

NEO Watercraft Grease is compatible with most rubbers, plastics and is a superior lubricant for “O” rings.

#### **Advantages:**

- U.S.d.a. H-1
- Waterproof
- Non-Melting
- Contains Ptf
- Kosher Approved
- High Metal Affinity
- Chemically Resistant
- Non-Staining
- Wide Temperature Range
- Reduces Wear
- Prevents Rust & Corrosion
- High Dielectric Strength

#### **Some of its diversified uses include:**

- Open Gears
- Food Equipment
- Slides And Ways
- Sterilizer Chains
- Gasket And “O” Rings
- Conveyors
- Valves
- Bushings
- Trunnions
- Pool Equipment
